There are millions of active network marketers around the world. Some MLM Corporations have over a million Associates. Others have Associates in the hundreds of thousands. That's a huge market.

Hundreds of Corporations are engaged in marketing their products via network marketing. New MLM Corporations are starting up every month.

### **The Commission Structure:**

The commission is based on the premiss that a single sale can explode into thousands of sales without any additional work. Your prime customers actual sell the system to their down line Associates for you.

A 30% commission is paid monthly, for as long as your customer continues to pay the monthly fee. This means having a residual commission income.
